

COPERNICUS CENTER

SOUND SYSTEM - BASIC

In the basic setup only one mixer (FOH) is used and the monitors are also supplied from this mixer. The system is capable of 4 monitor mixes from the Front of House and up to 6 monitor speakers are included.

A selection of wired microphones (Shure, Sennheiser, Audio Technica) up to 16 microphones and 2 wireless microphones are included in this package.

One sound engineer is included in this package with 6 hours time block. Time block starts from the time that the engineer comes to the Theater and begins set up. Any time after the 6 hour time block is considered overtime.

Sound System contains (BASIC setup)

- MIDAS Heritage 2000 mixer
- EAW KF730 line array speakers- 8 per side
- EAW UX8800 speaker processor
- KLARK TEKNIK DN360 Equalizer
- CROWN MA series power amplifiers (FOH)
- RACK of processors (Lexicon and TC Electronics)
- RACK of signal processors (Drawmer gates, DBX compressors)
