

Magdalena Krzak

I was born in Poland (Tarnow) I graduated from School of Art in Tarnow then continued my art education in Rzeszow.

I create mixed media on canvas because I love experimenting with all kind of different materials. Each piece of artwork tells a story through layers of painting, drawing, paper, photography, sand etc.

In my paintings I create images based on my own emotions and feelings. Sometimes they are optimistic some other time nostalgic. In my art I design my own dreamy, mysterious world where fantasy mixes with reality.
